

Public Hearing Minutes
for
Local Government Review Commission
April 10, 2025

Public present: Rick White, Jim Mandeville and Paula Mandeville

Committee members present: Joe Morse, Mina Morse, Karen Redman, Webb Mandeville and Cherrie McAlexander

Joe Morse called the public hearing to order at 6:00 pm. Joe asked the public that was present if there were any comments. No one responded. Joe gave a brief explanation of the training the review commission received to help educate them in the process. Joe explained the handout that was given to the public on the community survey.

Rick White asked how many surveys were mailed out and how many were returned. Cherrie responded that around 720 surveys were mailed out and around 185 were returned. Joe said he was surprised and pleased with the number we got back. Joe stated that most of the comments on the surveys had nothing to do with government review. The census of the survey did suggest that the citizens would like to see a minor change in the form of government but did not give any ideas of what they wanted changed.

After the review of the surveys, it was decided by the commission to keep the current structure the way it is.

Webb discussed how this process helped the city clean up some confusion on things. Cherrie gave some examples of some of the confusions. Jim asked if the city has written down and is moving forward correctly. Webb responded yes.

There was some discussion what the different small changes that could be made to our current structure.

Meeting was adjourned at 6:12pm
